

Fullerton College Facilities Master Plan Workgroup

Prioritized Construction Projects

The Fullerton College Facilities Master Plan Workgroup began working in March 2013 as a subgroup of the President's Advisory Council to review/discuss the Facilities portion of the 2011 Comprehensive Master Plan and use it as a basis to develop a prioritized list of construction projects for the College. The workgroup chose to use a tier approach with projects listed in alphabetical order under each tier with the understanding that the actual order will be determined as the College works through the design and implementation phases, while considering projects that would cause the least amount of disruption to the campus and minimize the need for swing space.

Tier 1

Complete existing projects in which funding has already been identified:

- Parking lot improvements
- Sherbeck Field completion

Tier 2

State Funded Projects:

- 300/500 Building Renovation
- 600 Building Renovation
- Performing Arts Complex

Locally Funded:

- Instructional Building
- Parking Structure
- Welcome Center

Tier 3

- 3000 Building Renovation
- Horticulture Modernization
- Lab School Project
- M&O Relocation

Tier 4

- La Habra Site

Submitted to PAC on April 24, 2013

Evaluation of the President's Advisory Council 2012-13

___ Voting Member

___ Resource Member

___ Non-member

Does the current membership of the PAC serve the needs of the college?

Yes___ No___

If "no" what change in membership would be helpful?

Do the PAC agendas address the needs of the college?

Yes___ No___

If "no" what should be added to the agendas?

Is it effective to have the College President chair the PAC?

Yes___ No___

If "no" who should chair the PAC?

Is the consensus method of voting appropriate for the PAC?

Yes___ No___

If "no" what method would be more appropriate?

Do you have any suggestions to improve the effectiveness of the PAC?
